

SHOW RACISM THE RED CARD

Watch the first 5 minutes of the video link in your assignment. You will need to put this code in: EdFilm&Pack2019 – you must ensure the capital letters are in the correct place and there are no spaces.

Burning Questions

Why do people think racism is okay? Now think about any questions you have about racism – **all of your questions are important.** Write them in the post it notes below.

Why do people think racism is ok?

Why do people treat others differently because of the colour of their skin?

What could we do to stop racism?

How can we help victims of racism?

Can racism happen anywhere?

Are people aware of how badly racism can affect others?

We will discuss your questions as a group.

Task 2

Look at the chart below and list as many words as you can that you think are associated with each heading – racism or respect.

Racism	Respect
<i>Hate</i> <i>Hurt</i> <i>Different</i> <i>Unkind</i> <i>Disrespect</i> <i>Wrong</i> <i>Spite</i> <i>Negative</i>	<i>Love</i> <i>Help</i> <i>Unique</i> <i>Kindness</i> <i>Respect</i> <i>Right</i> <i>Care</i> <i>Positive</i>

Challenge:

What do you notice about the words in each column? How are they different/similar?

I noticed that the words about racism were negative and the words about respect are positive

Why do you think that is the case?

I think that the words about racism were negative because racism is wrong and the words associated with it aren't usually very positive. I think the words associated with respect were positive because respect is a good thing
